● **HOBBIES AND INTERESTS**

Technology & Coding Practice I regularly work on small web projects using React, TypeScript, and backend tools to improve problem-solving skills and write cleaner, more maintainable code.

Learning New Digital Tools I actively explore modern technologies, AI tools, and productivity software to improve learning efficiency and technical understanding.

Research & Self-Study I enjoy researching topics related to business, technology, and international education, especially admission processes and academic requirements in Europe.

Team Collaboration & Knowledge Sharing I like working with others on academic or technical tasks, sharing ideas, and helping teammates solve problems efficiently.

Reading Business & Economics Content I follow articles and study materials related to business management, economics, and market trends to strengthen my academic foundation.
