ABOUT ME

Motivated and detail-oriented Frontend Developer with a strong foundation in React.js, TypeScript, and UI/UX best practices. Eager to contribute to Codrrious as a Frontend Intern by building performant, user-centric interfaces and collaborating effectively within an agile team. Passionate about learning new technologies and creating seamless user experiences.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, React Query, Tailwind CSS, ShadCN UI,
- **Backend:** Node.js, Express.js, REST APIs, Prisma, Mongoose, NextAuth, REST APIs
- **Languages:** JavaScript (ES6+), TypeScript
- **Databases:** MongoDB, PostgreSQL, MySQL Redis
- **Tools:** Git, GitHub, Postman, DevTools, VPS deployment, Dev Tools, Framer Motion, Jest, Responsive Web Design

PROJECTS

- **Companion – Finding Travel Partners Platform**

Next.js, Node.js, Prisma, PostgreSQL, React, Express.js

- Developed a responsive travel platform using React.js and Next.js with reusable, scalable component architecture leveraging Tailwind CSS and optimized rendering performance.
- Integrated REST APIs and Node.js backend endpoints, validating responses using Postman and improving data load time by 30%.
- Optimized frontend performance using React Query for state management and filtering logic, achieving 30% faster load times and better query handling.

- **MatirPay – Digital Wallet & Payment System**

TypeScript, Express.js, MongoDB, React, Redux. Mongoose

- Engineered a scalable React and Node.js application with reusable UI modules, supporting 1,000+ concurrent transactions per day.
- Integrated dynamic datatables with pagination and filtering using React Query, improving data loading efficiency by 25%.
- Designed mobile-friendly, SEO-optimized frontends using JavaScript to improve performance and user experience across devices.

- **CourseMS – Course Management System**

React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma.

- Built a responsive frontend using React, TypeScript, Redux Toolkit, and Tailwind CSS with protected routing and API integration.
- Developed secure REST APIs using Express, PostgreSQL, and Prisma with JWT authentication and modular backend architecture.
- Implemented production-ready features including role-based access, global error handling, Prisma migrations, and cloud deployment workflow.
